MICRO WEDDINGS

Gaining momentum in 2020, today the 'Micro Wedding' is a style in its own right. A good micro wedding prioritises guest experience over guest count, celebrates quality over quantity and proves that small-scale can still make a big impact.

MAKE IT MEMORABLE

The formula is simple: fewer guests mean lower costs — freeing up your budget for those memorable surprise-and-delight moments; A mini martini tower, a round of caviar bumps or a late night snack.
